- "Above and Beyond KM" is a blog authored by Mary Abraham, a Knowledge Management professional based in New York. The blog covers a wide range of topics that are relevant to all of us, including Change Management, Focusing and Prioritizing, ChatGPT, and more. You can visit the blog and access insightful articles at the following link: https://aboveandbeyondkm.com/

- Forbes recently published an intriguing article on the impact of Generative AI on the field of knowledge management. The article delves into the details of how this technology is shaping and transforming our roles and responsibilities within the knowledge management profession." Details: https://www.forbes.com/sites/forrester/2023/05/05/how-generative-ai-is-affecting-knowledge-management/?sh=3cc5e4b87b56

01

Practically Radical

A "Practically Radical" by William Taylor offers a non-technology-based approach to transforming companies and industries. The book highlights the importance of seeking new opportunities, embracing new ideas, and learning from the past. It emphasizes excelling in multiple dimensions, prioritizing customer relationships, and caring deeply about their needs. The book advocates for inclusive leadership that fosters collaboration and adaptive learning in a rapidly changing world. Overall, "Practically Radical" provides practical insights and inspiring stories to drive innovation and excellence in organizations.

Ready, Set, Go – Preparing for the Global Knowledge Week

The International Knowledge Management Forum will host International Knowledge Week in October 2023, encouraging organizations to engage in activities centered around knowledge. The week provides a platform for knowledge sharing and growth, with suggested activities including showcasing organizational units, deepening familiarity with projects and experts, fostering collaboration and learning, and looking towards the future. Benefits include fostering dialogue, renewing knowledge, and promoting a culture of learning. Organizations are advised to plan and organize activities accordingly.
